

Avocado Tuna Salad

INGREDIENTS:

- 1 can tuna, solid or chunk
- 1-2 tablespoons *D'Olivo Baklouti Green Chili Fused Olive Oil** (depending on size of can)
- 1-2 tablespoons lemon or lime juice**
- 2-3 tablespoons finely chopped red (or yellow) onion
- small handful (maybe 1/8 of a cup) finely chopped cilantro
- 1/2 ripe avocado, pitted, seeded & diced
- 3 or 4 grape/cherry tomatoes, finely chopped or sliced (optional)
- Salt and pepper to taste

* If you want to add a different flavor, some great alternatives oils are: *D'Olivo Wild Dill Olive Oil*, *D'Olivo Black Pepper Olive Oil*, or *D'Olivo Medium Ultra-Premium Extra-Virgin Olive Oil*.

** Fresh is best, as always, but you can definitely use bottled juice in a pinch. Or, you can add some probiotics to the dish and replace the juice with either *D'Olivo Sicilian Lemon White Balsamic* (will be sweeter than lemon juice!) or *D'Olivo Key Lime White Balsamic*.

DIRECTIONS:

Combine all ingredients and mix together. If needed, add more olive oil or lemon/lime juice to taste.

Don't have any avocados? This is absolutely delicious without it, too! (It just won't look nearly as pretty.)
